

New Version of HURREVAC NOW Available!

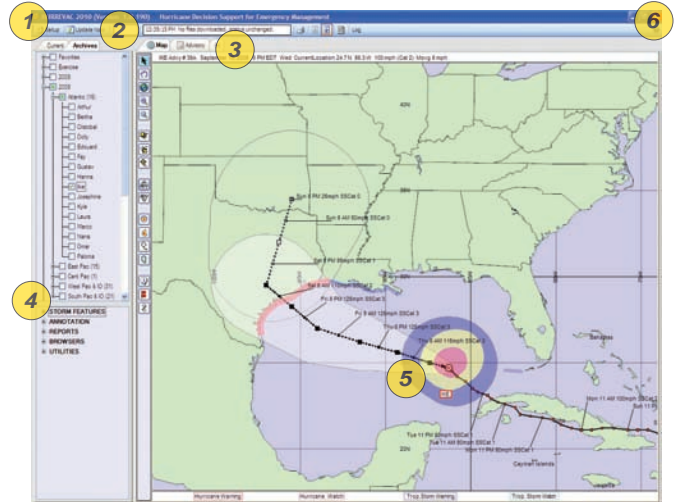

HURREVAC 2010

WHAT'S NEW WITH HURREVAC 2010?

To take full advantage of the latest programming technologies and incorporate feedback from the HURREVAC user community, the National Hurricane Program (NHP) decided to reprogram HURREVAC 2000. The new generation of HURREVAC is coined HURREVAC 2010. Based on the HURREVAC User Survey recommendations that were completed prior to beginning the development of HURREVAC 2010, several enhancements were made to improve the intuitiveness, functionality and ease of use of HURREVAC. The NHP is excited to release HURREVAC 2010 and hopes that it meets the expectations and requirements of the HURREVAC user community.

To support the transition from HURREVAC 2000 and HURREVAC 2010 the NHP will operate and maintain both versions of HURREVAC throughout the 2010 and 2011 Hurricane Season. Additionally, several training opportunities sponsored by the NHP will be available between March 1, 2010 and August 31, 2010.

- 1 EASY SETUP & DATA DOWNLOADING:** Quick and Easy Access to HURREVAC Setup from the Main Display. State specific data is easier to install and keep up to date.
- 2 AUTOMATIC POLLING AND DOWNLOAD:** Automatically and Continuously Downloads the Latest Available Real-Time Data from the National Hurricane Center (NHC) Advisories
- 3 WINDOW TABS:** The New Tab Display Format allows Quick and Easy Access to the Map Display, the NHC Advisory, or any Report or Analysis.
- 4 TREE-VIEW FORMAT:** The Tree-View Format Provides Quick and Easy Access to Current and Archive Storms and Other HURREVAC Functions.
- 5 IMPROVED GRAPHICS:** Wind Fields and the Error Cone can be Displayed at the Same Time and Transparent. Improved Resolution on Base Maps when Zoomed in to State and County Levels.
- 6 BETTER HELP MENU:** Help Menu is easier to Navigate and the Help Information is More Robust.

AVAILABLE HURREVAC 2010 TRAINING IN 2010.

National Hurricane Conference

Three HURREVAC 2010 Training Sessions will be held at the 2010 conference. Please visit www.HurricaneMeeting.com for training schedule and more information.

Florida Governor's Hurricane Conference

Multiple HURREVAC 2010 Training Sessions will be held at the 2010 conference. Please visit www.flghc.org for training schedule and more information.

Training Videos

Multiple short training videos are being prepared to demonstrate the use of the various features in HURREVAC 2010. These videos can be viewed anytime by registered HURREVAC users at www.hurrevac.com. Expected launch date for the training videos is May 1, 2010. These videos will also be available on the NHP Resource Information Center Website, which is currently under construction.

Weekly Webinar Training

Weekly three hour webinar training will be hosted starting March 2010 and ending August 2010. Please visit www.hurrevac.com to obtain webinar training schedule and how to participate.

State EOC Classroom Training

FEMA and USACE are currently working with State EMAs to schedule HURREVAC 2010 classroom training. Please contact your State EMA to find out more information on the State EOC Classroom training. Each classroom training session will provide four to six hours of HURREVAC 2010 training by a NHP approved HURREVAC trainer and assistant.

About HURREVAC

HURREVAC 2010 was created through a partnership of the Federal Emergency Management Agency, the U.S. Army Corps of Engineers, the National Oceanic and Atmospheric Administration, and Sea Island Software, Inc.
